For the Media:

For many years, Dr. LeslieBeth Wish has been a guest leader for our Women's Group that consists of 20-30 members and has been meeting continuously for 10 years. Without question, Dr. Wish's appearances are the highlight of the group. Our members make a special point to show up for her leadership.

We are a lively group! Dr. Wish does not lecture. Instead, she conducts what she calls a Town Hall Love Meeting where we discuss all kinds of issues about love: Self-esteem, Family, Our Lives, Friends, and more. We fire out questions and responses, and she manages not only to keep it all on course but also to knit together our "wisdom" and teach us solid principles of family, relationships, emotions and behavior. She is such a treasure, and every time she is the guest, our women leave feeling enlightened, empowered and uplifted. Her genuine care and true wisdom really come through. She would be an outstanding and memorable guest on your show.

Sincerely,

Susan Goldfarb
Executive Director
